To whom it may concern

It was our privilege to have Evangelist June Schmidt in our church in November of 1986. What impressed me most about Sis Schmidt was her evident compassion for people. This was complimented by the fact that she seems to adapt to easily to new conditions and people. One feels very comfortable in the presence of this servant of God.

Her ministry with us demonstrated a real depth of anointing of the Holy Spirit and a sound knowledge and application of the Word of God. The Revelation gifts accompany her ministry, which was very well received by the congregation.

Both my wife and I were ministered to through her rich ministry, which I heartily endorse and recommend to you.

Yours in Christ
